

Handling and maintenance instruction

Bag filters

Instruction regarding following products:

- Hi-Flo
- Standard-Flo
- Basic-Flo
- Cam-Flo
- City-Flo
- Hi-Cap

Storage instruction

- Store at a dry and frost-protected place

Handling instruction

- Handle with care when unpacking
- Filter media is sensitive and should be handled carefully

Assembly instruction

- Unpacking from box: Lift the filter by the frame and not by the media
- Keep the filter as long as possible in the box to avoid damage
- City-Flo are stored in plastic bag and box (carbon media). It is important that the filter is not exposed to contamination or humidity
- Install the filter with vertical (upright) bags - acc. VDI 6022
- Assemble with care and take care that bags don't get caught by sharp edges and details in units
- Control that all bags are free and not clamped
- Assemble gasket if needed
- Wear safety clothes / equipment when changing filters

Maintenance instruction

- Not applicable (filter is for replacement only)
- Do not wash filters
